

Data Report Form
SURFACE WATER TESTING - Biological intercomparisons
2024/Round II.

Reporting deadline: June 20, 2024

Please make sure that the expanded measurement uncertainties are the same as the assumed uncertainties written in your Quality Management Documentation. The unit of measurement of uncertainties **should be the same** as the unit of measurement of results.

Parameter [unit of measurement]	Sample ID	Measuement result	Expanded meas. uncertainty (k=2)	Analytical standard	Measurement method	Date of analysis
Chlorophyll-a [µg/dm³]	SW-HB-1		±			
	SW-HB-2		±			
Total number of algae [ind/cm³]	SW-HB-3		±			
	SW-HB-4		±			
Magnification:.....						
Dominant taxa (phytoplankton)	SW-HB-3	Please list name and relative frequency (%) of dominant species or genus on a separate sheet				
	SW-HB-4					
Algae biomass [mg/dm³]	SW-HB-3		±			
	SW-HB-4		±			

Please fill in the fields below.
